

Jake Sullivan

Frontend Developer | | +1 (555) 664-2098 LinkedIn: linkedin.com/in/jakesullivan-fe | Portfolio: jakesullivan.dev

Summary

Frontend developer with 4 years of experience building responsive web interfaces. Career switcher from marketing into tech via a coding bootcamp. Interested in exploring backend development and open to learning new technologies.

Skills

JavaScript, TypeScript, React, Next.js, HTML/CSS, Tailwind, Figma, basic Node.js (for small scripts), Firebase (client SDK)

Experience

Frontend Developer — Media company: StreamCast (2022–Present)

- Built and maintained React/Next.js components for a video streaming web app
- Collaborated with backend team on API integration (consuming REST APIs, no API design/build experience)
- Improved page load performance through code splitting and lazy loading

Frontend Developer — Agency: PixelWorks Studio (2020–2022)

- Built marketing websites and landing pages using React and Tailwind
- Used Firebase for simple form submissions and static content hosting

Marketing Coordinator — Retail brand: UrbanFit (2018–2020)

- Ran social media campaigns and email marketing
- No technical/development responsibilities

Education

Coding Bootcamp — Full-Stack Web Development, General Assembly (2020) B.A. Communications — University of Oregon (2017)

Notes

- No production Python experience
- No AWS, Docker, Kubernetes, or database design experience
- No backend API design or microservices experience
- Cover letter states interest in "transitioning into backend engineering" and willingness to learn on the job
